Subject: RE: Portland Harbor Surface Sediment Sampling

---

Hi Jenny,

Thank you for the invite. I think there are plenty to talk about in those hours. That said, EPA has not received the list of locations revisited from the Pre-RD group as agreed during our last Friday's call. Without ample time to review the list EPA may not be ready to have the in-depth discussion this afternoon. Thanks again.

Thanks,

\*\*\*\*\*  
Davis Zhen, Manager

Subject: Portland Harbor Surface Sediment Sampling  
When: Monday, June 04, 2018 2:00 PM-4:00 PM (UTC-08:00) Pacific Time (US & Canada).  
Where: WebEx

This was the time that most people were available to meet.

At the conclusion of today's sediment trap technical discussion, several topics were recognized as time critical to the surface sediment sampling field program. We hope to tackle as many of those as possible on this call. They are:

- Surface Sediment Re-randomization of Upriver Sampling
- Surface Sediment FSP edits
- Joint review of sampling locations that have been revisited
- Joint review of archived samples

her?

Davis, please forward to any additional EPA technical folks.

Thanks-  
Jenny
